

Fendi furnishings

Interior designer Fionnula Moulton recently decorated a showhouse in a new development, Rockbrook on the Stillorgan Road, from top to bottom with Fendi furniture. The fashion house produces an extensive range, covering bedroom, dining, living and hall furniture. Needless to say, it's all rather expensive but super-luxurious and made for a very particular market. A lot of the low-key pieces are very nice indeed, such as this butter-soft orange leather sofa and pair of low tables. Moulton is now the agent for the furniture and although she does have pieces to view, the best way to see all the furniture at once is to visit the showhouse. While there, take note of the textured wall-coverings – these are also by Fendi – and dramatic light fixtures. Fionnula Moulton can be reached at 087 2654537.
